

Operations

In the right part at the bottom (Kepler - Merging Documents for JIRA Panel) you can change the files order using the **Up** and **Down** arrows and choose the files to be exported using Select / Unselect action

The screenshot shows the 'Kepler - Merging Documents for JIRA Panel' interface. On the left, under the 'Attachments' tab, there are four file thumbnails: 'Doc.docx' (11 kB, 5 minutes ago), 'Excel file.xlsx' (6 kB, 7 minutes ago), 'PDF File.pdf' (172 kB, 6 minutes ago), and 'Prez.pptx' (30 kB, 5 minutes ago). A dashed box around these files is labeled 'Drop files to attach, or browse.' On the right, under the 'PDF Editor for JIRA' tab, there is a table of files with icons for selection and ordering. The table has columns for 'File', a selection icon, and an ordering icon. The files listed are 'Doc.docx', 'Excel file.xlsx', 'PDF File.pdf', and 'Prez.pptx'. A red arrow points from the text 'Select/ Unselect' to the selection icon column, and another red arrow points from the text 'Order / Sorting' to the ordering icon column.

File	Select/ Unselect	Order / Sorting
Doc.docx		
Excel file.xlsx		
PDF File.pdf		
Prez.pptx		

Once you have selected and ordered your files, you can start the export using the Export Action, please see below:

The screenshot shows the same 'Kepler - Merging Documents for JIRA Panel' interface. In the 'PDF Editor for JIRA' tab, there is a 'Refresh' button (circular arrow icon) and an 'Export' button (document icon with a right arrow). Red arrows point from the text 'Refresh' to the 'Refresh' button and from the text 'Export' to the 'Export' button.

File	Select/ Unselect	Order / Sorting
Doc.docx		
Excel file.xlsx		
PDF File.pdf		
Prez.pptx		

The "Export" Action will combine all selected attachments in the order you specified into one single PDF file which will then be attached to the Jira issue.
